JOB DESCRIPTION

- Conducting machine assembly, inspection, repairs, and maintenance, both at customer sites and within the ASNA Shop
- Independently planning, preparing, and setting up installations at customer sites, ensuring compliance with legal requirements
- Assessing the overall technical condition of machines
- Conducting functional tests to ensure proper operation
- Providing guidance and supervision to customer technicians and external assembly firms
- Actively pursuing service contracts and additional service offerings
- Generating detailed reports summarizing completed tasks and coordinating with customers
- Delivering training to on-site personnel
- Managing post-processing activities using the corresponding IT system

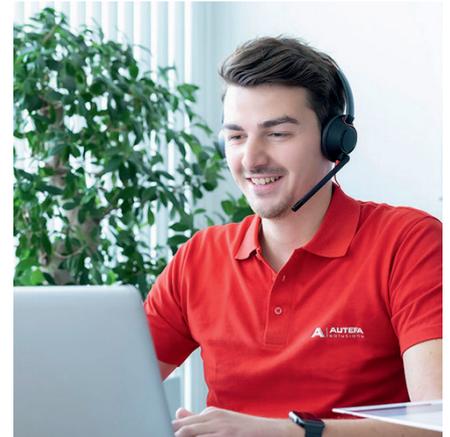

QUALIFICATIONS

- Possession of an industrial mechanic, technician, or equivalent qualification or completion of an apprenticeship
- Prior professional experience as a service technician is a plus
- A strong focus on delivering high-quality work and maintaining cost awareness
- Demonstrate personal initiative, adaptability, strong problem-solving abilities, and a customer-centric approach
- Proficiency in handling pneumatic and hydraulic components
- Ability to work independently and self-sufficiently after job training
- A willingness to travel, with an expected commitment of 50-60% of working time spent on travel

BENEFITS

- A forward-thinking organization with a streamlined organizational structure
- A continuous, diverse role with room for creativity
- Leadership that encourages and recognizes dedication
- A constructive and optimistic company culture
