AUTEFA Solutions is proud to have supplied complete needle punching geotextile lines to Suhail Industries, a leading holding group in Qatar. By using state-of-the-art technology, Suhail Industries demonstrates its ability to adapt to the ever growing market requirements and to react promptly and flexibly to individual customer needs. Driven by the increasing demand in recent years, the decision to invest in a new geotextile production line underlines the commitment to meet the growing demand for geotextiles in Qatar and international markets.

The selection of AUTEFA Solutions as a partner reflects their extensive experience and market leadership. AUTEFA Solutions, a leading supplier of turnkey nonwoven lines and machines. AUTEFA Solutions boasts a rich and storied history that spans several years, marked by a relentless pursuit of excellence and innovation in the field of nonwovens technology. Established as a company dedicated to providing cutting-edge solutions for the textile industry, AUTEFA Solutions has evolved into a global leader in turn-key nonwovens lines and machines. The company's comprehensive offerings cover a wide spectrum of applications, including lines for the production geotextiles, ensuring that it remains a versatile and integral player in various sectors.

Geotextiles, versatile flat or three-dimensional textiles, play a crucial role in separation, reinforcement and filtration in various construction projects such as highways, airfields, railways, sports fields, drainage ditches, dams and levees. Despite their strength and durability, geotextiles are lightweight and easy to install, making them indispensable in civil engineering, hydraulic engineering and transportation, where they play a key role in geotechnical stabilization.

André Imhof, CEO of AUTEFA Solutions Austria and AUTEFA Solutions Switzerland, expressed his pleasure to be present at the inauguration of Suhail Industries' new geotextile plant in Doha. This day marks a significant achievement not only for the company but for the industry as a whole. On behalf of the management of AUTEFA Solutions, André Imhof congratulates the entire Suhail Industries team for their unwavering commitment to innovation, sustainability, highest quality standards and economic value creation in geotextile production.

This new plant is a testament to Suhail Industries' commitment to excellence. André Imhof is confident that this state-of-the-art facility will not only contribute to the growth of Suhail Industries, but also enhance the company's reputation in the geotextile industry. He is eager to see the positive impact of this venture and looks forward to the future innovations that will undoubtedly come from Suhail Industries.
